

# Henry Hollander Bookseller

## About Catalogue No. 17 Yiddish Books

This catalogue represents my current Yiddish book selection and my current level of education in Yiddish language and bibliography. Transliteration continues to be a difficult issue. I have tried to standardize my work, but the books and the language resist the effort in a variety of ways. Perhaps it is better to admit to myself that this language, Yiddish, a Jewish language, is as impervious to uniformity as the people who spoke it and speak it still.

### Catalogue 17 supercedes Catalogues 7 and 8. Feel

free to inquire about titles from those older catalogues. I will do my best to supply the titles listed. The old prices, however, are retained only for reference purposes. Normally I remove superceded catalogues from my web site, but because information on Yiddish books is so scarce on the Internet, I felt that it would be useful to keep them available. There are many names in those catalogues that appear nowhere else on the Internet.

I continue to purchase Yiddish books in all areas. If you have Yiddish books that exceed your needs and are in good condition, please feel free to contact me. We buy locally, nationally and internationally.
